

Shivam Gupta

Junior Full-Stack Developer | React | Python Flask | PostgreSQL | REST APIs

+91 8108383003 shivamg8355@gmail.com github.com/shivamg108 LinkedIn Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with a B.Sc. in Information Technology and experience building secure, scalable web applications. Developed enterprise-level systems including HRMS and product management platforms with JWT authentication and role-based access control. Skilled in React, Python Flask, and PostgreSQL with hands-on experience across the full development lifecycle from development to deployment. Passionate about building efficient, secure, and user-friendly applications that improve business operations.

TECHNICAL SKILLS

React	JavaScript (ES6)	HTML5	CSS3	Bootstrap	Material UI	Python	Flask
Express.js	REST APIs	PostgreSQL	SQLAlchemy	JWT Authentication	bcrypt	CORS	Git
GitHub	Postman	Pillow	Pandas	XlsxWriter	TrueNAS	Waitress	

WORK EXPERIENCE

AU Finja Jewels

2025 - Present

Junior Full-Stack Developer (Python / Flask)

- Developing and maintaining internal business applications for jewelry inventory and operations management.
- Building secure backend REST APIs using Python Flask and integrating them with frontend interfaces.
- Designing relational database structures and managing data using PostgreSQL.
- Implementing authentication, input validation, and role-based access control for secure system access.
- Handling the full software development lifecycle including requirement analysis, development, testing, and deployment.

PROJECTS

Full-Stack HRMS (Commercial Project - In Development)

2025 - Present

- Developing a comprehensive Human Resource Management System to streamline organizational HR processes.
- Implemented modules for Leave Management, Attendance Tracking, Salary Management, and Performance Evaluation.
- Created a role-based dashboard with dynamic role assignment based on user permissions.
- Implemented advanced security including JWT dual-token authentication, bcrypt password hashing, and role-based access control.
- Applied security best practices including rate limiting, CORS protection, input validation, and secure cookie handling.
- Technologies: React, Material UI, Python Flask, PostgreSQL

Full-Stack Product Management & Image Processing System

2025 - Completed

- Developed a full-stack web application for automated batch image renaming and product management.
- Built secure REST APIs using Python Flask with JWT authentication, bcrypt password hashing, and role-based access control.
- Implemented automated image processing workflows with customizable naming using the Pillow library.
- Designed database architecture using PostgreSQL with SQLAlchemy ORM for product and inventory management.
- Created a dynamic React-based frontend with Material UI and interactive image gallery functionality.
- Deployed the application on a production server using Waitress WSGI with environment-based configuration on TrueNAS.

HRMS (Academic Project)

2024 - 2025

- Developed a Human Resource Management System for managing employee data and organizational workflows.
- Implemented employee management features with role-based access control.
- Designed responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Technologies: Python, Flask, SQLite, HTML, CSS, JavaScript

EDUCATION

Bachelor of Science in Information Technology

2022 - 2025

Mumbai University (Chandrabhan Sharma College, Powai)

Higher Secondary Certificate (HSC)

2020

Maharashtra State Board (Vidya Niketan College, Ghatkopar)

Secondary School Certificate (SSC)

2018

Maharashtra State Board (VPS School, Vikhroli)
